

HIDC-1600TVI

720P High Definition H.264 IP IR Dome Camera

Honeywell HIDC-1600TVI combines world-class imaging and the latest IP camera technology with IP networking innovation, providing streaming images at full frame rate at 720P resolution. With advanced resolution projection, the HIDC-1600TVI delivers high quality images, making it an ideal solution for high-end surveillance applications.

The 2.8 – 12mm vari-focal DC-IRIS lens allows the field of view to be adjusted to match the scene requirements. Equipped with 18 LED lights with up to 20m IR visible range, the HIDC-1600TVI guarantees superb image quality even at zero illumination environments.

The HIDC-1600TVI is equipped with built-in Power over Ethernet (IEEE 802.3af), which allows power to be supplied to the camera using the network, eliminating the need for a separate power supply and reducing the cost of installation. For additional installation flexibility, the HIDC-1600TVI can also be powered with DC 12V and AC 24V.

Market Opportunities

Featuring 720P high resolution, H.264 compression format, built-in IR LEDs, PoE and ONVIF interface, the HIDC-1600TVI optimizes surveillance performance for applications that require excellent image clarity and high-definition imaging at minimal bandwidth. With IP66 construction, the HIDC-1600TVI is most suitable for advanced applications such as metro, banks, railways, financial institutes, government buildings, airports etc.
